

# The Perfect Marriage

## MONOKA & CRAWFORD WED!

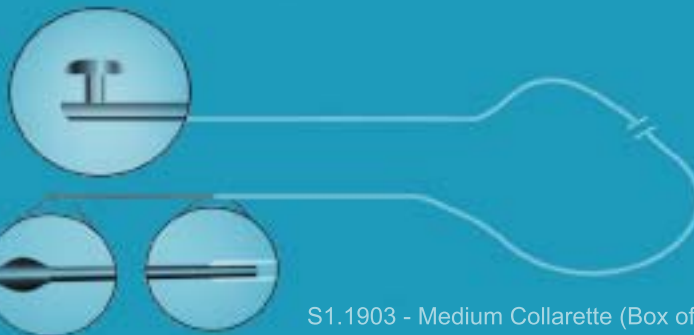

Introducing the **Mono-Crawford** from FCI Ophthalmics – a new product that combines the capabilities of our innovative Monoka and the popular Crawford Bicanaliculus Intubation system.

The Mono-Crawford gives you the best of both worlds when performing monocanaliculus intubation procedures.

- A **unique plug** means secure anchoring, no knots, no sutures, and no anesthesia at time of removal.
- The **olive tip probe** facilitates easy retrieval of the stent.

If you're looking for the convenience of our Monoka, plus the familiar Crawford, look no further—order the Mono-Crawford today.

S1.1903 - Medium Collarette (Box of 3)  
S1.1913 - Wide Collarette (Box of 3)
